(By Associated Press)
LONDON, Mar. 21.—Premier Lloyd George will resume his place in the house of commons on April 4, and immediately ask for a vote on the government's policy regarding the Genoa economic conference, Austin Chamberlain, government leader, announced in the house today.

Mr. Chamberlain added that the government intended to put the motion clearly, raising the question whether it is possessed of the confidence of the house. "The whole house will recognize it would be impossible for us to ask the premier to go to Genoa if there is any doubt about his authority," he said.

JOS. MEACHIN DIES IN RENO HOSPITAL

Joseph McEachin, former United States marshal for Nevada and for 15 years prominent and influential in the councils of the Democratic party in this state, died Sunday at a Reno hospital from a complication of ailments, with influenza as a contributing cause.

Mr. McEachin was well known in Tonopah, having made regular visits to this town during his long service on the road as representative of a wholesale hardware house. News of his death was received with deep feeling of regret by his many friends, as he was universally liked by all who had the pleasure of his acquaintance.

In 1918 he was appointed United States marshal but soon after taking over the office he declared that he would rather be back on the road selling hardware and within a year he resigned to resume traveling. About six months ago he became interested in starting a drug store at Truckee, the Eagle pharmacy, and assumed the management of the store. He had been ill for three weeks and was brought to a hospital in Reno.

CHURCH MISSION IS PROVING SUCCESS

The mission that was opened at St. Patrick's church last Sunday is very well attended. Father O'Brien, O. P., is not only an excellent speaker, but possesses personal magnetism to a high degree and his sermons are replete with interest. He has a national reputation as an apostolic missionary. There have been several able missionaries in St. Patrick's church, but those who have withdrawn have been replaced in Coblenz bridgehead by French, who now occupy the sectors on both sides of Coblenz.

SALE OF BONANZA BROKE ALL RECORD

The demand for copies of yesterday's Bonanza was so great that it became necessary to put the forms back on the press for the second time, and even then the extra issue disappeared like "hot cakes at a country fair." The people were anxious to get facts concerning the grand jurors, and ascertain the amount of taxes that each and every member pays for the support of town, county and state, hence the sale of the large number of extra copies that were printed.

POY LEASE IS EXPECTED CUT BIG PAY SHOOT

Operations at the Poy lease on the Golden Eagle claim at Royston are going steadily forward and it is expected that there will be some tangible developments within the next few days. Drifting was started last week from the shaft which has attained a depth of 35 feet, and it was stated Sunday by Chris Grant, who is in charge of operations, that a change in the formation was taking place, with indications most favorable for a vein of ore being encountered.

The ground being operated by Poy and associates lies 300 feet to the south of the Betts shaft whence a production of about \$20,000 was recently made, and which is still showing strong in mineral values. It is believed by mining men that the ore shoot will be found extending into the Poy ground, and the next few days promises to tell an important story. In the event that the shoot is found to be continuous then an incentive will be furnished for other owners of property at Royston to proceed with development along broadened lines.

HUGHES DENIES SECRECY PLOT WITH ENGLAND

No Understandings or Agreements Were Entered Into in Arms Conference.

EMBODIED IN TREATY FORM

Report Branded as Outrageous and Unthinkable and as Most Perfidious.

(By Associated Press)
WASHINGTON, Mar. 21.—Secretary of State Hughes sent a letter today to Senator Lodge, Republican senate leader, denying the charges made yesterday in the senate that a "secret understanding" had been entered into by the United States and Great Britain, during the arms conference, as to future action in the Pacific.

The American government entered into no secret understandings or agreements during the arms conference that were not embodied in treaty form, and made public. It was stated today at the White House. It is further declared inconceivable that the American government should invite Japan to a conference, and then be perfidious enough to turn around and make a secret agreement antagonistic to her.

Reiterating his denial made in a former communication, that any secret agreements existed with other powers, Secretary Hughes wrote today, he hoped to see no "further aspersions upon the veracity and honor" of the American delegates.

BEN HUR BUYS GROUP CLAIMS AT RANDSBURG

The Ben Hur Divide Mining company concluded a deal today whereby it takes over by purchase the Dry Wash group of two claims at Randsburg, California. The acquisition of these holdings is considered of great importance as the Dry Wash property lies within 500 feet of the Kelly shaft of the Randsburg mine, whence a production of \$4,000,000 has resulted. In sinking this shaft a net earning of \$5000 a foot resulted for the first 100 feet. The Grady lease lies within 1200 feet of the Dry Wash property, which has netted the operators over \$1,000,000 from a block of ground 120 feet square.

It is the intention of the Ben Hur company to move its entire equipment from the Divide district to Randsburg, and immediately institute an active campaign of development on the Dry Wash property. A. B. Hall, local mining engineer, made the examination of the Dry Wash holdings, and according to a telegram received this afternoon by R. J. Kelly will return to Tonopah tomorrow.
